To the single highest donor: Christen the launching of restored T-Bird #2, *Pirouette*

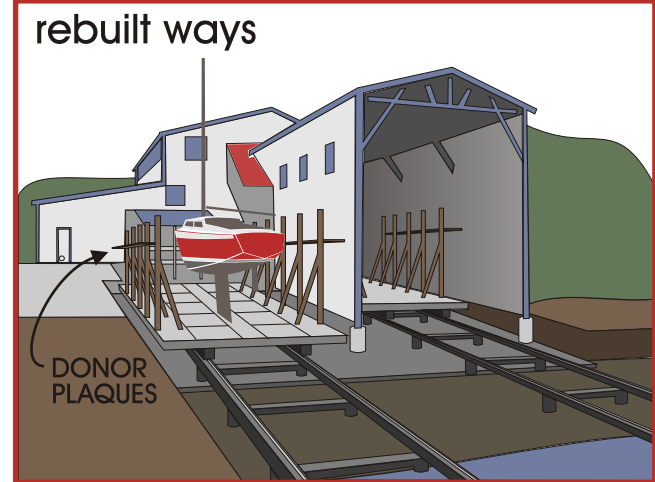

The first piling for the Ways being driven at Eddon Boatyard on March 1, 2011

Rebuild the Ways

A campaign to restore the marine railways at Eddon Boatyard

Why rebuild the Ways?

It's simple. The Eddon Boatyard can't function without the ability to get boats into and out of the water. The boatyard building and dock have been restored. With its two Ways rebuilt Eddon Boatyard will be complete. GHB will be able to fulfill its mission of preserving, interpreting and perpetuating the traditional small boatyard.

What can you do?

Please join others and donate to the GHB *Rebuild the Ways* Campaign. Be on hand for the first of many community boat launching events. Help christen restored Thunderbird #2, the *Pirouette*, and enjoy the sight as she slips down the new Ways into Gig Harbor Bay.

Help support:

- A community gathering place
- Gig Harbor BoatShop programming
- Historic/contemporary boat repairs
- Public access to the working waterfront
